Ringler, S.S., *see* Krakowka, S. et al.
Russell, S.W. and Pace, J.L. (Gainesville, FL, U.S.A.)
The effects of interferons on macrophages and their precursors 129
Schemmer, K.R., *see* Halliwell, R.E.W. and Schemmer, K.R.
Schmeer, N., Schnorr, K.L., Perez-Martinez, J.A. and Storz, J. (Baton Rouge, LA, U.S.A.)
Dominance of *Chlamydia psittaci*-specific IgG2 subclass in the humoral immune responses of naturally and experimentally infected cattle 311
Schnorr, K.L., *see* Schmeer, N. et al.
Schultz, K.T. and Grieder, F.B. (Madison, WI, U.S.A.)
Immunobiology of bluetongue virus 115
Smith, R.E., *see* Heidrich, J.E. et al.
Splitter, G.A., *see* Brownlie, J. and Splitter, G.A.; Davis, W.C. et al.
Spooner, R.L. (Edinburgh, Great Britain), Leveziel, H. (Jouy-en-Josas, France), Hoste, C. (Bouake, Ivory Coast) and Queval, R. (Bobo-Dioulasso, Burkina-Faso)
Studies on the major histocompatibility complex of indigenous cattle in the Ivory Coast . 377
Storz, J., *see* Schmeer, N. et al.
Tuboly, S. (Budapest, Hungary)
Adenovirus-induced immune complexes in ovine fetuses 215

Tucker, E.M., *see* Anderson, D.V. et al.
Zink, M.C., Narayan, O., Kennedy, P.G.E. and Clements, J.E. (Baltimore, MD, U.S.A.)
Pathogenesis of visna/maedi and caprine arthritis-encephalitis: new leads on the mechanism of restricted virus replication and persistent inflammation 167

SUBJECT INDEX

Allergy
The role of basophils in the immunopathogenesis of hypersensitivity to fleas (*Ctenocephalis felis*) in dogs 203
Antibodies
Bovine monoclonal antibodies to the F5 (K99) pilus antigen of *E. coli*, produced by murine/bovine hybridomas 223
Immune mechanisms in infections of poultry 87
Immunity against anaerobic bacterial infections 1
Investigation of cross-reactivity between commercially available antibodies directed against human, mouse, and rat lymphocyte surface antigens and surface markers on canine cells 285
Pathogenesis of visna/maedi and caprine arthritis-encephalitis: new leads on the mechanism of restricted virus replication and persistent inflammation 167
Antigens
Development and analysis of species specific and cross reactive monoclonal antibodies to leukocyte differentiation antigens and antigens of the major histocompatibility complex for use in the study of the immune system in cattle and other species 337
Investigation of cross-reactivity between commercially available antibodies directed against human, mouse, and rat lymphocyte surface antigens and surface markers on canine cells 285
Bacteria
Bovine monoclonal antibodies to the F5 (K99) pilus antigen of *E. coli*, produced by murine/bovine hybridomas 223
Dominance of *Chlamydia psittaci*-specific IgG2 subclass in the humoral immune responses of naturally and experimentally infected cattle 311
Immune mechanisms in infections of poultry 87
Immunity against anaerobic bacterial infections 1
Basophils
Role of basophils in the immunopathogenesis of hypersensitivity to fleas (*Ctenocephalis felis*) in dogs 203
Blastogenesis
Effect of Rous associated virus number 7 on lymphoid cells and tissues of chicken 267
Bluetongue virus
Immunobiology of bluetongue virus 115
Cattle
Bovine monoclonal antibodies to the F5 (K99) pilus antigen of *E. coli*, produced by murine/bovine hybridomas 223
Development and analysis of species specific and cross reactive monoclonal antibodies to leukocyte differentiation antigens and antigens of the major histocompatibility complex for use in the study of the immune system in cattle and other species 337
Dominance of *Chlamydia psittaci*-specific IgG2 subclass in the humoral immune responses of naturally and experimentally infected cattle 311
Influence of isoprinosine on bovine herpesvirus type-1 infection in cattle 253
Simple hemolytic assay for bovine complement component C3 239
Studies on the major histocompatibility complex of indigenous cattle in the Ivory Coast . 377
Cell-mediated immunity
Immune mechanisms in infections of poultry 87
Immunity against anaerobic bacterial infections 1

Immunobiology of bluetongue virus 115
Chemotaxis
Effects of interferons on macrophages and their precursors 129
Chicken
Effect of Rous associated virus number 7 on lymphoid cells and tissues 267
Immune mechanisms in infections of poultry 87
Complement
A simple hemolytic assay for bovine complement component C3 239
Cross-reactivity
Development and analysis of species specific and cross reactive monoclonal antibodies to leukocyte differentiation antigens and antigens of the major histocompatibility complex for use in the study of the immune system in cattle and other species 337
Investigation of cross-reactivity between commercially available antibodies directed against human, mouse, and rat lymphocyte surface antigens and surface markers on canine cells 285
Diagnosis
Immunity against anaerobic bacterial infections 1
Diarrhoea
Bovine monoclonal antibodies to the F5 (K99) pilus antigen of *E. coli*, produced by murine/bovine hybridomas 223
Dog
Immunosuppression by canine distemper virus: modulation of in vitro immunoglobulin synthesis, interleukin release and prostaglandin E_2 production 181
Investigation of cross-reactivity between commercially available antibodies directed against human, mouse, and rat lymphocyte surface antigens and surface markers on canine cells 285
Role of basophils in the immunopathogenesis of hypersensitivity to fleas (*Ctenocephalis felis*) in dogs 203
Fetopathies
Adenovirus-induced immune complexes in ovine fetuses 215
Flea
Role of basophils in the immunopathogenesis of hypersensitivity to fleas (*Ctenocephalis felis*) in dogs 203
Genetics
Immunity against anaerobic bacterial infections 1
Monoclonal antibodies to sheep MHC class I and class II molecules: biochemical characterization of three class I gene products and four distinct subpopulations of class II molecules 59
Goat
Pathogenesis of visna/maedi and caprine arthritis-encephalitis: new leads on the mechanism of restricted virus replication and persistent inflammation 167
Histocompatibility
Development and analysis of species specific and cross reactive monoclonal antibodies to leukocyte differentiation antigens and antigens of the major histocompatibility complex for use in the study of the immune system in cattle and other species 337
Monoclonal antibodies to sheep MHC class I and class II molecules: biochemical characterization of three class I gene products and four distinct subpopulations of class II molecules 59
Studies on the major histocompatibility complex of indigenous cattle in the Ivory Coast . 377
Humoral immunity
Dominance of *Chlamydia psittaci*-specific IgG2 subclass in the humoral immune responses of naturally and experimentally infected cattle 311

Immunobiology of bluetongue virus 115
Hybridomas
Bovine monoclonal antibodies to the F5 (K99) pilus antigen of *E. coli*, produced by murine/bovine hybridomas 223
Hypersensitivity
Role of basophils in the immunopathogenesis of hypersensitivity to fleas (*Ctenocephalis felis*) in dogs 203
Immune complexes
Adenovirus-induced immune complexes in ovine fetuses 215
Immunoglobulins
Adenovirus-induced immune complexes in ovine fetuses 215
Dominance of *Chlamydia psittaci*-specific IgG2 subclass in the humoral immune responses of naturally and experimentally infected cattle 311
Immunosuppression by canine distemper virus: modulation of in vitro immunoglobulin synthesis, interleukin release and prostaglandin E_2 production 181
Immunosuppression
Immunosuppression by canine distemper virus: modulation of in vitro immunoglobulin synthesis, interleukin release and prostaglandin E_2 production 181
Interferon
Effects of interferons on macrophages and their precursors 129
Immunobiology of bluetongue virus 115
Pathogenesis of visna/maedi and caprine arthritis-encephalitis: new leads on the mechanism of restricted virus replication and persistent inflammation 167
Interleukin
Effects of interferons on macrophages and their precursors 129
Immunosuppression by canine distemper virus: modulation of in vitro immunoglobulin synthesis, interleukin release and prostaglandin E_2 production 181
Influence of isoprinosine on bovine herpesvirus type-1 infection in cattle 253
Intestinal tract
Lymphocyte localization in lymph nodes of pubescent, prepartum, and postpartum sheep 297
Isoprinosine
Influence of isoprinosine on bovine herpesvirus type-1 infection in cattle 253
Lymphocytes
Effect of Rous associated virus number 7 on lymphoid cells and tissues of chicken 267
In vivo and in vitro effects of moderately virulent African swine fever virus on mitogenesis of pig lymphocytes 323
Lymphocyte localization in lymph nodes of pubescent, prepartum, and postpartum sheep 297
Macrophages
Effects of interferons on macrophages and their precursors 129
Influence of isoprinosine on bovine herpesvirus type-1 infection in cattle 253
Mammary gland
Lymphocyte localization in lymph nodes of pubescent, prepartum, and postpartum sheep 297
Man
Investigation of cross-reactivity between commercially available antibodies directed against human, mouse, and rat lymphocyte surface antigens and surface markers on canine cells 285
Mitogenesis
In vivo and in vitro effects of moderately virulent African swine fever virus on mitogenesis of pig lymphocytes 323

Monoclonal antibodies
Bovine monoclonal antibodies to the F5 (K99) pilus antigen of *E. coli*, produced by murine/bovine hybridomas 223
Development and analysis of species specific and cross reactive monoclonal antibodies to leukocyte differentiation antigens and antigens of the major histocompatibility complex for use in the study of the immune system in cattle and other species 337
Monoclonal antibodies to sheep MHC class I and class II molecules: biochemical characterization of three class I gene products and four distinct subpopulations of class II molecules 59
Mouse
Investigation of cross-reactivity between commercially available antibodies directed against human, mouse, and rat lymphocyte surface antigens and surface markers on canine cells 285
Pathogenesis
Adenovirus-induced immune complexes in ovine fetuses 215
Effect of Rous associated virus number 7 on lymphoid cells and tissues of chicken 267
Immunity against anaerobic bacterial infections 1
Pathogenesis of visna/maedi and caprine arthritis-encephalitis: new leads on the mechanism of restricted virus replication and persistent inflammation 167
Role of basophils in the immunopathogenesis of hypersensitivity to fleas (*Ctenocephalis felis*) in dogs 203
Phagocytosis
Effects of interferons on macrophages and their precursors 129
Immune mechanisms in infections of poultry 87
Immunity against anaerobic bacterial infections 1
Pig
In vivo and in vitro effects of moderately virulent African swine fever virus on mitogenesis of pig lymphocytes 323
Prostaglandins
Immunosuppression by canine distemper virus: modulation of in vitro immunoglobulin synthesis, interleukin release and prostaglandin E_2 production 181
Protozoa
Immune mechanisms in infections of poultry 87
Rat
Investigation of cross-reactivity between commercially available antibodies directed against human, mouse, and rat lymphocyte surface antigens and surface markers on canine cells 285
Sheep
Adenovirus-induced immune complexes in ovine fetuses 215
Immunobiology of bluetongue virus 115
Lymphocyte localization in lymph nodes of pubescent, prepartum, and postpartum sheep 297
Monoclonal antibodies to sheep MHC class I and class II molecules: biochemical characterization of three class I gene products and four distinct subpopulations of class II molecules 59
Pathogenesis of visna/maedi and caprine arthritis-encephalitis: new leads on the mechanism of restricted virus replication and persistent inflammation 167
Skin
Role of basophils in the immunopathogenesis of hypersensitivity to fleas (*Ctenocephalis felis*) in dogs 203

Techniques
Simple hemolytic assay for bovine complement component C3 239
Tumours
Effects of interferons on macrophages and their precursors 129
Vaccination
Immunity against anaerobic bacterial infections 1
Immunobiology of bluetongue virus 115
Viruses
Adenovirus-induced immune complexes in ovine fetuses 215
Effect of Rous associated virus number 7 on lymphoid cells and tissues of chicken 267
Immune mechanisms in infections of poultry 87
Immunobiology of bluetongue virus 115
Immunosuppression by canine distemper virus: modulation of in vitro immunoglobulin synthesis, interleukin release and prostaglandin E_2 production 181
Influence of isoprinosine on bovine herpesvirus type-1 infection in cattle 253
In vivo and in vitro effects of moderately virulent African swine fever virus on mitogenesis of pig lymphocytes 323
Pathogenesis of visna/maedi and caprine arthritis-encephalitis: new leads on the mechanism of restricted virus replication and persistent inflammation 167
Visna/maedi virus
Pathogenesis of visna/maedi and caprine arthritis-encephalitis: new leads on the mechanism of restricted virus replication and persistent inflammation 167
